And What Have You

By BOB CRAIG

We understand that considering the rain and Labor Day weekend, the Booster Club had a good turnout for the barbecue Saturday night.

Since my sister got married that night we had to miss the affair. But then the boys and I were invited to come down at noon Saturday so we did not miss out on the eating part.

A lot of people, particularly Gerald Young, put in a lot of work to make this annual barbecue possible. We feel that this is not only good for the football boys but also good for the town as a whole.

That is quite a professional looking set up they have accumulated to put on these feeds with.

Speaking of football, it is that time again. The Pipers will open their season here Friday night by hosting their annual opening foe, Rotan.

Here again we seem to have run into a snag, because of Press Association responsibilities the wife and I will be in Kerrville over the weekend and will miss this first game.

We wish to take this opportunity to express our best wishes to the team and to the coaches on their opener. We hope that this is the only one that we have to miss this year. This will be our second game to miss and we are going on our seventh football season here.

While we are sure that the boys and some of the fans may have been a little discouraged the other night at the scrimmage with Ballinger, we feel that the boys have the potential for a really fine year if they are willing to give that second effort.

Modern-day high school football in Texas has gotten to the point that it is not the team with the biggest players or even the one with the biggest star that wins; but the one that pays the biggest price in terms of dedication, hard work, and extra effort.

Desire to play and to win seems to be the key to winning football today. If you were on the field Friday night with Ballinger you know that they had the desire to play. They were not big or particularly loaded with talent, they just all wanted to hit somebody.

Hamlin has the talent and the coaches to win with if they can find this desire. But it takes more than just a bunch of kids that want to win, it also takes a town that wants to win. Somebody has to urge these kids on, to encourage them to do their very best and not just make excuses for their mistakes.

It takes a spark of something extra to be a winner and it takes a whole town to kindle this spark. So if you want a winner, do your part to get this spark started. Don't just be one that keeps saying wait until next year. For next year will never come.

Mr. and Mrs. Everett Gibson of Abilene sent us a clipping out of the Plattsburch Press-Republican newspaper published in Plattsburch, New York, in which their son, Everett K., Jr., was featured in an article on the search for possible parts of a meteorite that passed over that part of the country back in April.

Everett teaches in the chemistry department of Arizona State University where he is completing study on a doctorate in Chemistry. He is a Hamlin High graduate. Mrs. Gibson taught in High School here until last year when Mr. Gibson was transferred to Abilene with T-P Oil Co.

According to the article, Everett has joined scientists and outer-space authorities from around the country who have spent the summer in that area looking for pieces, talking to people who saw the meteorite, and mathematically figuring the location in which it could have fallen.

Gibson said in the interview that scientists around the world are interested in the particles because these are the only things from outer-space available for study. In order to send men and machines into space, he said, much information is needed to find out what kind of environment will be encountered once out in space.

Gibson returned to Tempe, Arizona, Sept. 5, after spending two days in Washington, D. C., sight-seeing.

GETTING READY FOR FEED — Burt Oliver, president of the Pied Piper Booster Club takes his turn at helping cook the barbecue for last Saturday night's membership drive. Looking on is Jan Young. The club fed between 350 and

400 and signed up about 250 members. Gerald Young started the meat cooking at 3 o'clock Saturday morning. The football players, coaches and their wives were introduced to the Piper fans.

County Purchases Two Buildings In Anson for Additional Space

Jones County commissioners last week approved purchase of two buildings on the north-west corner of the square in Anson, the added space to relieve crowded conditions in the courthouse.

The buildings, each 30 by 90 feet, were purchased from the Goodwin estate at a total price of \$7500. Judge Leon Thurman said Tuesday that title is being examined at the present time.

When the transaction is completed, the commodities distribution center which now

is being housed in a rented building on the north side of the square, will be moved into the north one half of the newly-acquired building. Space in the rear of this building will be available for storage by the sheriff's department.

The other 30-foot building will be remodeled so that three offices will be created. Cooling and heating also will be installed. The remodeling likely will be done by day labor but bids probably will be sought on the cooling and heating.

The public welfare office will be moved from the basement of the courthouse to the new space. There are two welfare officers and a secretary in the office.

The office of Jones County Home Demonstration Agent Mrs. Mary Newberry will be moved to the space now occupied by the welfare office. The large room to be vacated by Mrs. Newberry will be added to the basement space already being used by Tax Assessor - Collector A. J. French.

AS PLANTING TIME NEARS—

Chairman Explains Wheat Program

With planting time at hand, operation of the 1967 wheat program was discussed by A. D. Hill, chairman of the Jones County Agricultural Stabilization and Conservation (AS-C) Committee.

"With the national allotment raised to 68.2 million acres, most farmers can plant as much wheat as they want and still participate in the program," Mr. Hill said. "The can help provide the food needed to fight the worldwide war on hunger and still have income protection through price-support loans and domestic marketing certificates."

Mr. Hill pointed out that the 1967 program has no provisions for diversion or for diversion payment. He said the diversion features of the program were eliminated because farmers no longer need to produce less than will be consumed in order to reduce the surplus.

Farmers may elect any of several options when they participate in the program, the chairman said.

They can plant all of their

The two boys lead the Rotan defense at the linebacker posts.

REV. BYRON BRYANT . . . resigns Sunday

County Adopts \$558,000 Budget

Budget for the new year was adopted Wednesday by the Jones County Commissioners Court after a public hearing was held on that date. The budget calls for total expenditures of \$558,000, slightly less than last year.

The tax rate was set at 70 cents with 2 cents to go to the jury fund, 28 cents for the road and bridge fund, and 40 cents to go to the general fund.

Tax rate in Road District 1, which comprises approximately the northern one-half of the county, was set at 15 cents, down 10 cents from last year.

In 1967, he said, but farmers who request a special barley base, which will be identical with the barley base established for the farm in 1966, may elect to substitute wheat on any or all of their barley base. There will be no diversion from the barley base and no barley diversion payments.

The 1967 program continues the option to substitute wheat for oats and rye on an approved oat-rye base. There will also be no diversion from the oat-rye base and no oat-rye diversion payment. The base will be adjusted on a State-by-State basis to allow for the difference in feed produced per acre, Mr. Hill said.

Farmers who wish to participate in the wheat program should elect the option they wish to use, plant this fall to fit their intentions, and sign up in the program during the enrollment period which will be announced later, he said.

Full details of how the 1967 Wheat Program will fit each farmer's individual situation may be obtained from the Jones County ASCS Office, the chairman pointed out.

Neinda Philosopher Figures Cities Need \$50,000 An Acre In Federal Aid To Keep Them Going

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route 1 puts the big city problem in a different light in his letter this week. Dear editor:

According to an article I read in a newspaper which

drifted onto this Johnson grass farm yesterday, don't know where it came from, the mayor of New York informed a Senate committee in Washington that New York has reached the limit of its taxing ability, has run out of new

sources of revenue, and will need 50 billion dollars from the Federal government in the next ten years to keep the city livable.

Moreover, other major cities are getting in the same shape, and one Senator, figuring up their requests, calculated it would take 250 billion dollars in the next ten years to keep them all livable.

I got to thinking this over, and while I don't know exactly how many acres there are in the country's major cities, I estimate they're asking for roughly about \$50,000 per acre per year.

You can see this makes the farmers, who never got more than 3 or 4 dollars an acre in Federal help, look like pikers.

It makes a person wonder can we really afford these cities?

I know land is valuable in a city, but if it takes \$50,000 an acre per year in Federal hand-outs to keep it producing, it makes a man scratch his head.

Furthermore, there are other complications. For example, farmers now make up less than 10 per cent of the total population in this country, and if the 90 per cent now living in cities can't support themselves and are looking outside their boundaries for help, somebody is sure dreaming if he thinks us farmers can carry the load. I wouldn't mind sending New York a dollar now and then, but 10 billion? Just haven't got it.

Somebody ought to tell the cities, where all the brains are supposed to be, that just because farm prices are up a little it doesn't mean we can rake up 25 billion dollars a year just to tide them over.

Yours faithfully,
J. A.

"Just 34 more weeks 'til school is out!" is one of the comments heard the other day.

All of the students are up to their necks with duties to carry out, bank accounts to open, pep squad problems FFA and FHA activities being made up and class officers being elected.

Last Friday the MHS pep squad had a candy sale. They sold candy during the dinner and P. E. period. Each week there will be two candy sales. Junior high has one and the pep squad the other to earn money for their suits.

Monday MHS's football team went to Hamlin for their physical examinations. I believe everyone passed with an A.

Wednesday school pictures were taken. After the pic-

tures were taken the juniors and seniors sold ads for the annual. The outcome was rather fine.

Thursday, the Seniors took the last pictures they will ever have in high school. Besides being worried if their hair was in place or their ties straight; I believe there was a sad spot in each heart.

High school and grade school students will attend the West Texas Fair next week. Each year McCaulley attends the Fair. Besides being educational, it is loads of fun.

Debbie McCright was elected president of the pep squad Friday. Linda Spalding was announced secretary - treasurer. Mrs. Wilson, wife of our new coach, is sponsor.

MHS has decided to have a school newspaper to be called the "Eagle Times." This

idea has not yet been under supervision; but, I'm sure it soon will be. At any rate we plan to let you know.

REST

A day of play has tired this little one, but now sleep will bring about the needed rest. This is the time for restoring energies, and breaks the day's pace. The Lord set aside a day for rest and worship. This day allows us to be in the Lord's house and renews our energies for the week to come.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

PIPER PATTERN— HHS Students Busy Organizing For the New School Year

Helen Moore
Tommy Oliver
Beth Craig

"The halls are alive with the sounds of students. . . . Yes, HHS has come alive with students once again. As one walks down the hall during a class period, he can hear anything from the shorthand class; "k-a-t, cat to the Spanish class; "uno, dos, tres. . ."

In the distance, he may hear the tap, tap, tap of a typewriter. If he is curious enough to explore the situation, he will find that it is only the from behind THE GREEN DOOR paper staff hard at work on next week's paper. Heading the paper staff is Geneva Ward as editor. Helen Moore will be her assistant editor. Taking care of the sports department is Sammy Ferguson, sports editor. Cindy Bryant is the organizational editor, and Patty Cowan is the class editor. Copy editor is Linda Goodwin. Serving as reporters are Beth Craig, FHA; Vicki Newland, band; June Hill, NHS; and Pam Holtz, Senior class. Reporters for the other organizations and classes will be elected sometime this week. Mr. Milburn Wink is doing an excellent job as sponsor of the staff.

Even at night one may hear the sounds of students' excited voices echoing through the halls. Tuesday, Aug. 30, became one of those nights as members of the Senior class elected the remainder of their officers. Robert Moore, who was elected president last May,

presided over the meeting. Elected as vice president was Larry McCoy. Pam Holtz is the class reporter. June Hill and Geneva Ward will carry much responsibility as they serve as treasurer and secretary, respectively. The Seniors also made plans for their calendar sale which began last week and will end Friday. Calendar Captains were Gary Connally, Mike Murphree, Joy Bond, and Sue Roddy. Heading the advertising committee was Helen Moore.

One can hear a loud "Who are the Pipers" from the auditorium fourth period as the Pep Squad eagerly awaits the first game, but yells aren't their only business. They are working hard at their marching, and they have elected their head majorette and Head cheerleader. Sandra Fudge, sr., was elected head majorette; and Helen Moore, sr., was elected head cheerleader. (The Pep Squad sends out a warm "thanks" to HHS students for their co-operation in leaving the banners on the lockers.

The band has been hard at work on their first half time show. They worked Thursday night to get the show under better control.

Writing the 1966-67 Piper Patter will be Helen Moore, sr., Tommy Oliver, jr., and Beth Craig, soph. In the past three senior girls have written this column, but to add variety to the column a senior, junior, and a sophomore were elected.

TEXAS PRESS ASSOCIATION

Austin — Officials from major Texas cities, beset with money problems, are calling on the Legislature to allow municipalities a 50-50 split in any new broad-based state taxes enacted next year.

Gov. John Connally pledged to recommend "very substantial new sources of revenue" for the cities after a group of metropolitan area mayors conferred with him.

Question as to wheather the kind of revenue-sharing plan advocated by the mayors is permissible under the state constitution will be briefed by

the Texas Legislative Council, at the request of House Speaker Ben Barnes.

Cities petitioned for a 50 per cent refund of any increase in the state sales tax or an equivalent amount of any new broad-base tax, with the state doing the collecting and apportioning half of new funds where paid.

While agreeing to ask the Legislature for financial relief for the cities, Connally declined to spell out the precise form and amount he will seek. He did promise there will be "no strings attached" to his recommendation.

Connally also reported an agreement for regular conferences on urban problems between the mayors and top state officials.

What will happen to the cities' request for financial assistance in a legislative session where a state tax bill of more than \$200,000,000 is regarded as a certainty remains to be seen.

Some authorities do not believe a straight refund is possible without a constitutional amendment, although the Legislature could authorize the cities to levy their own sales tax with the state serving as collector.

County Baptist Set Workshop

The Jones County Baptist Association will hold its monthly Workshop and Conference at Lueders Baptist Church, Sept. 13. Workshop will begin at 4 p.m. with Board Meeting to follow at 5:30. Supper will be served by the Lueders church.

Pied Piper Farms has entered seven head of Hereford in the Tulsa State Fair, Sept. 30 through Oct. 9. This entry will be among several thousand and contestants trying for a total of over \$100,000 in premiums and awards offered this year by the fair.

Officers Named

Brad Stallcup was elected president of the Hamlin Junior High Band last Wednesday.

Other officers are Toni Casey, vice president; Denise Preston, secretary; and Darrell Craig, reporter.

MISSIONARY BAPTIST BELIEFS AND PRACTICES

And He said unto them, Go ye into all the world, and preach the Gospel to every creature. Mark 16:15. This verse of scripture teaches the New Testament church to carry the Gospel of our Lord Jesus Christ into all the world. In order to do this to the best of her ability the Calvary Baptist Church cooperates with and associates with the North American Baptist Association. The N.A.B.A. has 165 Missionary families in the field. The Calvary Baptist Church and her pastor invites everyone to visit our services, examine our doctrines and practices, and unite with us to carry the Gospel to a sinick world. Grand jury in 104th District Court was not impanelled until Tuesday afternoon because of the illness of Judge Owen Thomas. Original time was set as 9 a.m. but members of the panel were advised to come in at noon.

Judge Ben Charlie Chapman of Haskell, judge of the 39th District Court, has been appointed by Judge Thomas to preside over 104th District Court for a few days.

Judge Thomas is presiding judge for this district and as such it is his responsibility to assign judges where the need exists. It was a coincidence that he had to assign a judge to serve in his own place.

HEIDENHEIMER'S

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

We understand that considering the rain and Labor Day weekend, the Booster Club had a good turnout for the barbecue Saturday night.

Since my sister got married that night we had to miss the affair. But then the boys and I were invited to come down at noon Saturday so we did not miss out on the eating part.

A lot of people, particularly Gerald Young, put in a lot of work to make this annual barbecue possible. We feel that this is not only good for the football boys but also good for the town as a whole.

That is quite a professional looking set up they have accumulated to put on these feeds with.

Speaking of football, it is that time again. The Pipers will open their season here Friday night by hosting their annual opening foe, Rotan.

Here again we seem to have run into a snag, because of Press Association responsibilities the wife and I will be in Kerrville over the weekend and will miss this first game.

We wish to take this opportunity to express our best wishes to the team and to the coaches on their opener. We hope that this is the only one that we have to miss this year. This will be our second game to miss and we are going on our seventh football season here.

While we are sure that the boys and some of the fans may have been a little discouraged the other night at the scrimmage with Ballinger, we feel that the boys have the potential for a really fine year if they are willing to give that second effort.

Modern-day high school football in Texas has gotten to the point that it is not the team with the biggest players or even the one with the biggest star that wins, but the one that pays the biggest price in terms of dedication, hard work, and extra effort.

Desire to play and to win seems to be the key to winning football today. If you were on the field Friday night with Ballinger you know that they had the desire to play. They were not big or particularly loaded with talent, they just all wanted to hit somebody.

Hamlin has the talent and the coaches to win with if they can find this desire. But it takes more than just a bunch of kids that want to win, it also takes a town that wants to win. Somebody has to urge these kids on, to encourage them to do their very best and not just make excuses for their mistakes.

It takes a spark of something extra to be a winner and it takes a whole town to kindle this spark. So if you want a winner, do your part to get this spark started. Don't just be one that keeps saying wait until next year. For next year will never come.

Mr. and Mrs. Everett Gibson of Abilene sent us a clipping out of the Plattsburgh Press-Republican newspaper published in Plattsburgh, New York, in which their son, Everett K., Jr., was featured in an article on the search for possible parts of a meteorite that passed over that part of the country back in April.

Everett teaches in the chemistry department of Arizona State University where he is completing study on a doctorate in Chemistry. He is a Hamlin High graduate. Mrs. Gibson taught in High School here until last year when Mr. Gibson was transferred to Abilene with T-P Oil Co.

According to the article, Everett has joined scientists and outer-space authorities from around the country who have spent the summer in that area looking for pieces, talking to people who saw the meteorite, and mathematically figuring the location in which it could have fallen.

Gibson said in the interview that scientists around the world are interested in the particles because these are the only things from outer-space available for study. In order to send men and machines into space, he said, much information is needed to find out what kind of environment will be encountered once out in space.

Gibson returned to Tempe, Arizona, Sept. 5, after spending two days in Washington, D. C., sight-seeing.

GETTING READY FOR FEED — Burt Oliver, president of the Pied Piper Booster Club takes his turn at helping cook the barbecue for last Saturday night's membership drive. Looking on is Jan Young. The club fed between 350 and 400 and signed up about 250 members. Gerald Young started the meat cooking at 3 o'clock Saturday morning. The football players, coaches and their wives were introduced to the Piper fans.

Nazarene Church To Open Fall Revival Sunday

The fall revival at the Church of the Nazarene will be held Sept. 11 through Sept. 18, according to the pastor, Rev. Marshall Stewart. Services will be held at 10:40 a. m. and 7 p. m. on Sunday and at 7:30 p. m. during the week.

Rev. Odell A. Brown of Kansas City, Mo., will be the evangelist and Rev. Bill Morris, pastor of the Church of the Nazarene in Abilene, will be in charge of the music.

Rev. Brown is a former pastor of the First Church of the Nazarene in Abilene and has been a successful pastor and evangelist for over 25 years. Rev. Stewart said, "Rev. Brown is a very fine Bible expositor and is an interesting preacher with a possessive personality. You will enjoy his ministry, I am sure."

The music director has been well received and enjoyed by the people of the church and community in past revivals, the pastor continued.

Everyone is invited to attend and participate in this revival. The church is located at the corner of Southwest First and Avenue C.

County Purchases Two Buildings In Anson for Additional Space

Jones County commissioners last week approved purchase of two buildings on the north-west corner of the square in Anson, the added space to relieve crowded conditions in the courthouse.

The buildings, each 30 by 90 feet, were purchased from the Goodwin estate at a total price of \$7500. Judge Leon Thurman said Tuesday that title is being examined at the present time.

When the transaction is completed, the commodities distribution center which now

is being housed in a rented building on the north side of the square, will be moved into the north one half of the newly-acquired building. Space in the rear of this building will be available for storage by the sheriff's department.

The other 30-foot building will be remodeled so that three offices will be created. Cooling and heating also will be installed. The remodeling likely will be done by day labor but bids probably will be sought on the cooling and heating.

The public welfare office will be moved from the basement of the courthouse to the new space. There are two welfare officers and a secretary in the office.

The office of Jones County Home Demonstration Agent Mrs. Mary Newberry will be moved to the space now occupied by the welfare office. The large room to be vacated by Mrs. Newberry will be added to the basement space already being used by Tax Assessor - Collector A. J. French.

AS PLANTING TIME NEARS—

Chairman Explains Wheat Program

With planting time at hand, operation of the 1967 wheat program was discussed by A. D. Hill, chairman of the Jones County Agricultural Stabilization and Conservation (AS-C) Committee.

"With the national allotment raised to 68.2 million acres, most farmers can plant as much wheat as they want and still participate in the program," Mr. Hill said. "The can help provide the food needed to fight the worldwide war on hunger and still have income protection through price-support loans and domestic marketing certificates."

Mr. Hill pointed out that the 1967 program has no provisions for diversion or for diversion payment. He said the diversion features of the program were eliminated because farmers no longer need to produce less than will be consumed in order to reduce the surplus.

Farmers may elect any of several options when they participate in the program, the chairman said.

They can plant all of their

The two boys lead the Rotan defense at the linebacker posts.

Top boy in the line is tackle Glenn Murphree, 180 pound all-district last year. He has experienced mates in guard Perry Hunsaker, end Charles McCall, guard Donnie Powell,

center Robert Patton, guard Larry Helms, end Zeke Rodriguez and guard Stanley Edwards.

The Yellowhammers are capable of fielding a starting lineup with a line average of around 180 pounds and a backfield averaging in the 170's.

County Adopts \$558,000 Budget

Budget for the new year was adopted Wednesday by the Jones County Commissioners Court after a public hearing was held on that date. The budget calls for total expenditures of \$558,000, slightly less than last year.

The tax rate was set at 70 cents with 2 cents to go to the jury fund, 28 cents for the road and bridge fund, and 40 cents to go to the general fund.

Tax rate in Road District 1, which comprises approximately the northern one-half of the county, was set at 15 cents, down 10 cents from last year.

In 1967, he said, but farmers who request a special barley base, which will be identical with the barley base established for the farm in 1966, may elect to substitute wheat on any or all of their barley base. There will be no diversion from the barley base and no barley diversion payments.

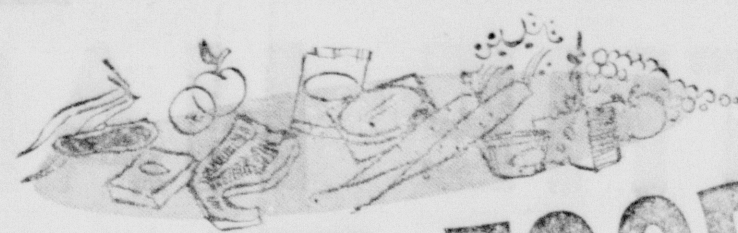

The 1967 program continues the option to substitute wheat for oats and rye on an approved oat-rye base. There will also be no diversion from the oat-rye base and no oat-rye diversion payment. The base will be adjusted on a State-by-State basis to allow for the difference in feed produced per acre, Mr. Hill said.

Farmers who wish to participate in the wheat program should elect the option they wish to use, plant this fall to fit their intentions, and sign up in the program during the enrollment period which will be announced later, he said.

Full details of how the 1967 Wheat Program will fit each farmer's individual situation may be obtained from the Jones County ASCS Office, the chairman pointed out.

Neinda Philosopher Figures Cities Need \$50,000 An Acre In Federal Aid To Keep Them Going

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route 1 puts the big city problem in a different light in his letter this week. Dear editor:

According to an article I read in a newspaper which drifted onto this Johnson grass farm yesterday, don't know where it came from, the mayor of New York informed a Senate committee in Washington that New York has reached the limit of its taxing ability, has run out of new

sources of revenue, and will need 50 billion dollars from the Federal government in the next ten years to keep the city livable. Moreover, other major cities are getting in the same shape, and one Senator, figuring up their requests, calculated it would take 250 billion dollars in the next ten years to keep them all livable.

I got to thinking this over, and while I don't know exactly how many acres there are in the country's major cities, I estimate they're asking for roughly about \$50,000 per acre per year.

You can see this makes the farmers, who never got more than 3 or 4 dollars an acre in Federal help, look like pikers.

It makes a person wonder can we really afford these cities?

I know land is valuable in a city, but if it takes \$50,000 an acre per year in Federal hand-outs to keep it producing, it makes a man scratch his head.

Furthermore, there are other complications. For example, farmers now make up less than 10 per cent of the total population in this country, and if the 90 per cent now living in cities can't support themselves and are looking outside their boundaries for help, somebody is sure dreaming if he thinks us farmers can carry the load. I wouldn't mind sending New York a dollar now and then, but 10 billion? Just haven't got it.

Somebody ought to tell the cities, where all the brains are supposed to be, that just because farm prices are up a little it doesn't mean we can rake up 25 billion dollars a year just to tide them over.

Yours faithfully,
J. A.

"Just 34 more weeks 'til school is out!" is one of the comments heard the other day.

All of the students are up to their necks with duties to carry out, bank accounts to open, pep squad problems FFA and FHA activities being made up and class officers being elected.

Last Friday the MHS pep squad had a candy sale. They sold candy during the dinner and P. E. period. Each week there will be two candy sales. Junior high has one and the pep squad the other to earn money for their suits.

Monday MHS's football team went to Hamlin for their physical examinations. I believe everyone passed with an A.

Wednesday school pictures were taken. After the pic-

tures were taken the juniors and seniors sold ads for the annual. The outcome was rather fine.

Thursday, the Seniors took the last pictures they will ever have in high school. Besides being worried if their hair was in place or their ties straight; I believe there was a sad spot in each heart.

High school and grade school students will attend the West Texas Fair next week. Each year McCaulley attends the Fair. Besides being educational, it is loads of fun.

Debbie McCright was elected president of the pep squad Friday. Linda Spalding was announced secretary - treasurer. Mrs. Wilson, wife of our new coach, is sponsor.

MHS has decided to have a school newspaper to be called the "Eagle Times." This

Idea has not yet been under supervision; but, I'm sure it soon will be. At any rate we plan to let you know.

Tuesday Set As Hamlin Day At West Texas Fair

Supt. C. F. Cook has received 1010 free school day tickets for Hamlin pupils and teachers for the West Texas Fair at Abilene on Hamlin Day, Tues., Sept. 13.

President Oscar Rose and Admissions Chairman Nib Shaw of the Fair advised Cook that tickets will be honored at any time during that day or evening.

REST

A day of play has tired this little one, but now sleep will bring about the needed rest. This is the time for restoring energies, and breaks the day's pace. The Lord set aside a day for rest and worship. This day allows us to be in the Lord's house and renews our energies for the week to come.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

HHS Students Busy Organizing For the New School Year

Helen Moore
Tommy Oliver
Beth Craig

"The halls are alive with the sounds of students. . . Yes, HHS has come alive with students once again. As one walks down the hall during a class period, he can hear anything from the shorthand class: "k-a-t, cat to the Spanish class, "uno, dos, tres. . ."

In the distance, he may hear the tap, tap, tap of a typewriter. If he is curious enough to explore the situation, he will find that it is only the from behind THE GREEN DOOR paper staff hard at work on next week's paper. Heading the paper staff is Gevena Ward as editor. Helen Moore will be her assistant editor. Taking care of the sports department is Sammy Ferguson, sports editor. Cindy Bryant is the organizational editor, and Patty Cowan is the class editor. Copy editor is Linda Goodwin. Serving as reporters are Beth Craig, FHA; Vicki Newland, band; June Hill, NHS; and Pam Holtz, Senior class. Reporters for the other organizations and classes will be elected sometime this week. Mr. Milburn Wink is doing an excellent job as sponsor of the staff.

Even at night one may hear the sounds of students' excited voices echoing through the halls. Tuesday, Aug. 30, became one of those nights as members of the Senior class elected the remainder of their officers. Robert Moore, who was elected president last May,

presided over the meeting. Elected as vice president was Larry McCoy. Pam Holtz is the class reporter. June Hill and Geneva Ward will carry much responsibility as they serve as treasurer and secretary, respectively. The Seniors also made plans for their calendar sale which began last week and will end Friday. Calendar Captains were Gary Connally, Mike Murphree, Joy Bond, and Sue Roddy. Heading the advertising committee was Helen Moore.

One can hear a loud "Who are the Pipers" from the auditorium fourth period as the Pep Squad eagerly awaits the first game, but yells aren't their only business. They are working hard at their marching, and they have elected their head majorette and Head cheerleader. Sandra Fudge, sr., was elected head majorette; and Helen Moore, sr., was elected head cheerleader. (The Pep Squad sends out a warm "thanks" to HHS students for their co-operation in leaving the banners on the lockers.

The band has been hard at work on their first half time show. They worked Thursday night to get the show under better control.

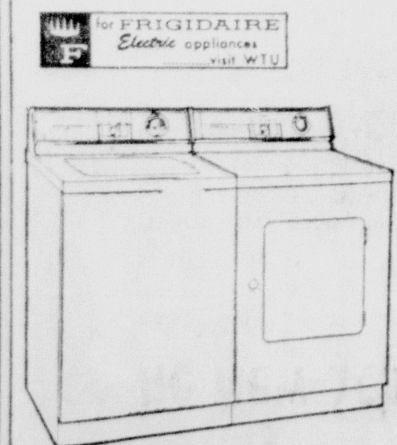

Writing the 1966-67 Piper Patter will be Helen Moore, sr., Tommy Oliver, jr., and Beth Craig, soph. In the past three senior girls have written this column, but to add variety to the column a senior, junior, and a sophomore were elected.

Austin — Officials from major Texas cities, beset with money problems, are calling on the Legislature to allow municipalities a 50-50 split in any new broad-based state taxes enacted next year.

Gov. John Connally pledged to recommend "very substantial new sources of revenue" for the cities after a group of metropolitan area mayors conferred with him.

Question as to whether the kind of revenue-sharing plan advocated by the mayors is permissible under the state constitution will be briefed by

MISSIONARY BAPTIST BELIEFS AND PRACTICES

He said unto them, Go ye into all the world, and preach the Gospel to every creature. Mark 16:15. This verse of scripture teaches the New Testament church to carry the Gospel of our Lord Jesus Christ into all the world. In order to do this to the best of her ability the Calvary Baptist Church cooperates with and associates with the North American Baptist Association. The N.A.B.A. has 165 Missionary families in the field. The Calvary Baptist Church and her pastor invites everyone to visit our services, examine our doctrines and practices, and unite with us to carry the Gospel to a sinless world. Carrell Watkins, pastor, Calvary Baptist Church, NW Ave. G and NW 5th. (Adv.)

the Texas Legislative Council, at the request of House Speaker Ben Barnes.

Cities petitioned for a 50 per cent refund of any increase in the state sales tax or an equivalent amount of any new broad-base tax, with the state doing the collecting and apportioning half of new funds where paid.

While agreeing to ask the Legislature for financial relief for the cities, Connally declined to spell out the precise form and amount he will seek. He did promise there will be "no strings attached" to his recommendation.

Connally also reported an agreement for regular conferences on urban problems between the mayors and top state officials.

What will happen to the cities' request for financial assistance in a legislative session where a state tax bill of more than \$200,000,000 is regarded as a certainty remains to be seen.

Some authorities do not believe a straight refund is possible without a constitutional amendment, although the Legislature could authorize the cities to levy their own sales tax with the state serving as collector.

New Mansion Sought — At its initial meeting, the Texas Fine Arts Commission, created by the Legislature in 1965, recommended a new governor's mansion and said the present residence, completed in 1855, should be operated as an historic house.
